

# Training Schedule

Tel: 01562 744348

VLE MIDDLEWARE  
January – July 2010

VLE Middleware Training offers first class advanced technical training in a variety of Information Technology areas. We are committed to providing the best possible training, education and advice in order for you to meet your long term personal development and career goals and for your institution to meet its I.T. and Learning Technology needs. Providing accredited training in-conjunction with the Lancaster University Microsoft Programme, we are ideally positioned to offer you a programme of study that will meet your needs.

PHP for Beginners	PHPFB01	3			2-4		26-28		14-16	£415
PHP Intermediate	PHPINT02	3								TBA
PHP Advanced	PHPAV03	3								TBA

If you have a number of people who require the same Linux or Open Source training, it makes sense to run an onsite course at your institution. In addition to our standard sessions, we offer specially tailored courses, enabling you to combine elements of related courses to produce a unique bespoke training package designed to fulfil your specific requirements. Call us on 01562 744348 – you may find that by working with us to design a bespoke package your training costs could be reduced.

The Microsoft IT Academy Programme supports the Microsoft Training Centre here at VLE Middleware. This is achieved in conjunction with Lancaster University InfoLab21. The Academy Programme is designed to prepare course attendees for technology careers. The program includes a coordinated curriculum, courseware, and online collaboration tools to help achieve certification in Microsoft technologies.

Accredited training at VLE Middleware in-conjunction with the Lancaster University Microsoft Programme
